There was a conference of the nominees of the Logan convention held in the office of L. R. Martineau on Thurs day afternoon. The situation was discussed at length, but no action was a little Sperry was better, and order taken regarding a chairman nor executive committee of the state committee. As to the candidacy of Jesse Knight, the party leaders still hold that he is the candidate for governor. It has been suggested that he has not yet been officially notified of his nomination, hence it is held that he cannot decline a position which has not been tendered

party leaders maintain that there is no vacancy. On October 2 another meeting will be held. By that time the party leaders will have learned thoroughly that they have no candidate for governor, and will then name some one to lead the ticket. Meanwhile they hold that no vacancy exists.

The delegates to the American county convention from the Fourth munici-pal ward are requested to meet at the American party headquarters Friday night, September 25, at 8 o'clock, for purpose of organizing, naming com-

Friends of N. D. Corser are urging him to become a candidate for repre-sentative before the American conven-tion. They urge in his behalf that he is an old soldier, a Grand Army veteran and one of the committee which secured the next encampment of the G. A. R for Salt Lake.

The American primary in district No. 4 instructed the delegation for A. D. McGuire for member of the house in the legislature. He is the state lecturer for the Modern Woodmen.

OSWALD FERRIS FOUND GUILTY OF BURGLARY

Oswald Ferris, the incorrigible youth who was withdrawn from the state industrial school and whose case was reopened to transfer him to the state prison, was found guilty of second-degree burglary by a jury in Judge Armstrong's disvision of the Third district court, Thursday; but sentence was postponed until next Wednesday, when Forrest Wilson, in whose case the same course was followed, also will receive

sentence.
Both Ferris and Wilson escaped from the industrial school, were recaptured, brought back, and were detected plan-ning to escape a second time. On ac-count of their alleged desperate char-acter it was throught best by the authorities to reopen their cases and send them to the state prison, if possible. Wilson was found guilty a few days

At their former hearings both youths pleaded guilty, but when they were withdrawn from the reform school and arraigned the second time, they with drew that plea and pleaded not guilty, contesting the case on the grounds that they had been in jeopardy before. Their counsel says that a motion for a new trial will be entered, and that if this is denied appeal will be taken to the supreme court.

DEPUTY SHERIFF SPERRY HAS AN EPILEPTIC FIT

No Action Taken Regarding the Governor Cutler Again Practices Letter Writing, This Time to Sheriff Emery.

> Amy Johnson, one of the colored women arrested Tuesday night in Sheriff C. Frank Emery's raid on red light houses, while on route from the court to the county jail Thursday shortly after noon, turned a clever trick on Deputy Sheriffs Ike Emery and Joseph Sharp and escaped. Up to a late hour last night she had not been recaptured.

That the prisoner had made her getaway was not known for some little time, and then a search for her was started. The excitement that the depuly sheriffs had Thursday with the pris-oners arrested in the raid Tuesday night is quite an interesting story, and if it had not been for the prompt action of Attorney J. M. Thomas it is safe to say that nearly every one of the cloven that the deputies had in charge would have made their escape.

Sept. 23, 1908.

Sheriff C. Frank Emery, Sa't Lake City, Utah:—My Dear Sir.—If, as rated in the papers today, the city administration has falled to arrest and punish the street-walkers and prostitutes who ply their trade in the city, and you have commenced the work of enforcing the law against this form of law-breaking, you are to be congratulated. It thank you in behalf of the State for what you are doing, and urge you to continue the work. In this connection I would suggest that if it should develop that these worsen are to be placed in the resorts evidently being prepared for them, not only they, but the men who resort to their houses ought to be arrested and punished to the fullest extent of the law. If the city falls or refuses to perform this plain duty through its police department, I ask that you and your deputies take up the work. And I piedge you the moral support of the State in the work of suppressing this traffic and punishing those who carry it on.

Yours very truly. Yours very truly, JOHN C. CUTLER, Governor.

JOSEPH LIPPMAN TALKS TO WOMEN

Forcible Address Made by Well-Known Attorney to Woman's American Club.

PAYS HIS RESPECTS TO MORMON CHURCH

Hierarchy, He Says, Cannot Keep People in Subjection Much Longer.

"The administration in power in Sal Lake City is more free from graft and other cylls than any other city in this land today. The city is to be congratulated upon the honesty and loyalty of her officials, and when we get the county we will give you the same honest and clean government as the city fathers are showing you now. We will make many of the institutions an honor to the state which are now a disgrace, and will show you the best government which has ever been seen in Salt Lake county."

Thus declared Attorney Joseph Lippnan in a strong and foretble address at club, Thursday evening, at the residence of Mrs. George H. Raybould, 642 South West Temple street. Mr. Lippman was greeted by a large audience, despite the disagreeable weather, it being the best attended meeting of the club which has been held in months, and great enthusi-

Mr. Lippman began his address by explaining why he was an American, de claring that it was because he stood for better government and the general welfars of the city and state. "I think we fare of the city and state. "I think we ought to have more sympathy toward the Mormons," he continued. "It is not they, at large, who are to blame. It is the hierarchy—it is that body of men which, standing at the head of the organization—whom we ought to fight. But the fimits soon coming when they cannot keep the people in subjection; the time is soon coming when this kind of thing will cease to work. The modern-day education and stage of civilization will necessarily bring about a change.

American Party Growth

American Party Growth.

"Since the American party was organized four years ago. I have seen a wonderful growth in that organization. Look at the various improvements, the magnificant buildings and skyscrapers, which have been constructed during the last two years. While speaking on the bend issue at Liberty park a few weeks ago, I said that there were still a few 'old fogies' in the city who would fight improvements to the end. In the issue of the Deseret News the following evening, that paper said that I had made an attack upon the pioneers. No, far from it: the pioneers are to be honored for American Party Growth. ing, that paper said that I had made an attack upon the pioneers. No, far from it; the pioneers are to be honored for what they did for this state in the early days. We all appreciate what they did for Utab, but the state has gotten beyond the ideas entertained in those days. The American party wants to advance the interests of every man, woman and child in the city, county and state.

"The Republicans began the campaign by fighting for prohibition, and see how they handled that." Mr. Lippmas then went on to relate how the Intermountain Republican had advocated local option and prohibition by publishing in a hox on the front page in every issue for some weeks last spring, articles which attempted to explain why Utah should adopt prohibition. He then called attention to the National Brewers association

Then the next issue was the red light question. Do you believe that they are sincere in the stand they have taken in this matter? It is not for the pretonded purity and morality, but simply to place the American party, as they think, in a hole. But they cannot do it, for the American party has a record that can not be broken. They say the American party is trying to move it. No, the American party abhors it. The American party stands unaiterably against it. The Republican party has taken the stand that it has merely for the sake of winning votes. They know the end will come within five years, if they do not win the within five years, if they do not win the coming election.

coming election.

"The American party was founded to put an end to a system of government which should not and cannot exist in the twentieth century. If the American party wins the coming election, within two years from now many other counties, including Weber, will be under its control. years from now many other counties, including Weber, will be under its control. If the American party wins the coming election, certain men in this city will soon be on the way to the settlements to which they are now preparing to go. A short time ago I was talking to a gendleman on the street, and was telling him that the American party had put up all these fine, big buildings, when a Mormon stepped up and said that the American party had not put up the Deseret News building. No, I told him, that was true, but within twenty years, the building (referring to the temple) would be ing (referring to the temple) would be made into one of the finest art institutes in the world."

Humorous Incidents. Mr. Lippman related several humorous incidents and laid especial emphasis on the craftiness of the church as demonstrated by the fact that since Joseph F. Smith promised Congress in the Smoot trial that the revelation advocating pelygamy should be taken out of the future editions of the Doctrine and Covenants that

just simply left the date of the edition off the title page in order that they may say it was not published since Joseph F. Smith made that promise.

In conclusion, Mr. Lippman called attention to the bright prospects which confront the American party.

After Attorney Lippman's address. Chairman J. E. McGinty of the American county committee made a few remarks. He dealt largely with statistics, showing the remarkable growth of the party.

Mrs. Joseph Cohen, president of the club, also made a few remarks. She spoke briefly of her recent visit to the East.

GLOOM HOVERS OVER COMMERCIAL

The gloem on Commercial's Victoria alley still continues. All dives and haunts of the sheriff and his force are puredark, and there was not a significant about any of them.

There were but few people Commercial street, and with tion of the faint strains of mulpiano from some saloon it was as a graveyard.

Although the sheriff had set scouting about the city atter round up women, no arrests made up to a late hour.
